

Boozter™

BOOZZTER™ Pan Feeding System for Cockerels

**Roxell has closed the LOOP on Oval Feeding Systems for Breeder Houses.
Now your cockerels can enjoy the benefits of oval feeding, too!**

/// ROXELL®

Boozter™

HIGH, WIDE GRILL OPENINGS

- Plenty of head room with no sharp edges gives roosters easy access to feed.
- Pan spacing (5 pans on 20 feet/6 meters) gives all males room to access feed.

UNIFORM FEED RATION

- Pans are filled in the air and are lowered to present the same ration to all males.

MAXIMIZE FEED SAVINGS

- Ten individual feeding spaces and special stepped pans exclude selective eating and minimize feed waste.
- Convenient feed level adjustment ring sets the feed level in the pan.

MANAGE ROOSTER WEIGHTS

- The Boozter Pan offers tight control of the feed volume presented in the pan, allowing better management of male weights and fertility.

TECHNICAL SPECIFICATIONS

Boozter™ Pan Feeding System for Cockerels		
Number of birds per pan		10
Average age at removal		65 weeks
Average weight at removal		10 lbs. (4.5 kg)
Max. daily feed intake per bird		4.5-5.8 oz (130-165 g)
GENERAL TECHNICAL INFO		
Pan:	Material	U.V.-Stabilized Polypropylene (nylon top support)
	Diameter	19.2 x 12.8 inches (488 x 325 mm)
	Amount per feed level setting	Approx. 0.6 oz. (16 grams)
	Grill spacing width	4.1 inches (104 mm)
	Grill spacing height	5.9 inches (149 mm)
Transport:	Tube material	Galvanized steel
	Outside diameter tube	1.75 inches (44.5 mm)
	Power unit	669 rpm
	Feed transport capacity	1,800 pounds/hour (816 kg/hour)
	Max. length of line (5 pans on 20-foot/6-meter line spacing)	492 feet (150 m)

Suspension bracket stabilizes the feeder line while anti-swing clamp stabilizes the pan on the tube. Helps keep feed centered in eating area.

Unique, Stepped Pan Design with 10 Feeding Spaces

Easy-to-Operate Feed Level Adjustment

Solid hinge allows easy, thorough cleaning without removing pans.

We've seen lower mortality and the best performance from our males in eight years. We can't help but believe Roxell's new male feeder system made the difference.
